

ANDALUSIA SP. Z O.O.

Andalusia Sp. z o.o. offers a natural zeolite and its products. Possessing our own open-pit mine we are competitive in terms of accessibility to the mine and the prices. We cooperate with many companies in Poland and the EU. We have been supplying them with our raw material for several years. Our offer includes products for gardening, well-known as 'Zakarpacki Zeolit' (Transcarpathian zeolite), which has already positioned itself in the market and among regular customers. We also produce cat-litters 'Present for Cat'. For many of our customers we pack products from our raw material in their packages under their brand logo. Our zeolite can be used in such industries as: agriculture and gardening, animal feed industry, construction, water and wastewater treatment, production of plastic, paper, rubber, etc.

Products & Services: Zeolite, zoological and gardening products.
