

ECO-ENERGIA SP. Z O.O.

Eco-Energia Sp. z o.o. has been operating on the Lubelskie voivodship market of the renewable energy sources since 2009. Projects related to the acquisition of electricity from the Sun are the core business of our company. Eco-energia is engaged in the complex process of construction and implementation of photovoltaic systems. We provide turnkey solar power projects of various sizes and types. We collaborate with the Technical University of Lublin. We have got contacts with many 'key players' in the RES industry. We are a member of Lublin RES Energy Cluster. We regularly upgrade our skills through participation in RES training sessions, conferences, trade fairs and thematic exhibitions in Poland and Europe. Our competitive advantage is the fact that we are the first company in the Lublin Region specializing in photovoltaics.
