

EKO-SANIT D.GRZYBOWSKI SP.J.

Eko-Sanit was founded in 1996 with the aim of supplying the air conditioning market with condensing units and chillers. In the following years, the Service Department was created and the company expanded its activities to the installation of HVAC systems. In 2006, a warehouse was opened in the company's new headquarters at 23 Piaskowa Street in Lublin, Poland, supplying air-conditioning and ventilation materials, whereas in the years 2009 and 2011 the company's new Branch Offices were set up in Rzeszów and Warsaw. Currently, Eko-Sanit is a well-established company in the south-eastern part of Poland offering a wide variety of air conditioning and ventilation units and materials as well as thorough servicing and delivery of consumables.

Products & Services: Sale of air conditioning units, VRV, VRF, DVM systems, chillers, condensing units, close control units. Sale of ventilation units: ventilators, AHUs, ducts and ventilation accessories. We offer the maintenance of air-conditioning and ventilation installation units.
