

AGRO-POLI SP. Z O.O.

AGRO-POLI Sp. z o.o. produces polypropylene yarn of high, normal and medium tenacity from 330 dtex up to 5550 dtex. The products meet the EU technical standards.

The function tests confirm numerous advantages of polypropylene yarn such as:

- high resistance to breaking,
- wide choice of colours, depending on the customer's needs,
- resistance to mould and harmful impact of water,
- easiness of further processing,
- high resistance to attrition,
- chemical resistance to acids' and alkalis' influence.

AGRO-POLI also offers polypropylene sacks in standard and non-standard sizes, with PE lining and also with two-coloured prints. The sizes and colours of sacks are tailored to the customer's requirements. Moreover, the company offers sacks which are approved to come into contact with food.

Products & Services: Polypropylene yarn and sacks.
