

ARKONA LABORATORIUM FARMAKOLOGII STOMATOLOGICZNEJ GRZEGORZ KALBARCZYK

ARKONA

ARKONA researches, develops and brings to market advanced solutions and techniques for use by dental surgeons throughout the world. We have been operating for 19 years. Being a manufacturer, we produce composite materials for fillings and tooth restorations. Our products are made in close cooperation with top-notch dentists and excellent Polish chemists. We have our own production plant and a laboratory, the distribution network and five permanent representative offices in the European Union and Asia. We offer the highest international quality at very attractive prices. Our products are used by doctors from dozens of countries around the world. In our work we use the latest achievements of global science and create genuine technological solutions. We have developed a number of medical and pharmaceutical patents.

Products & Services: Dental restorative materials.
