

# TECHZUT SP. Z O.O.

We are proud to present to you Techzut which is a trustworthy partner in the injection moulding and plastic processing branch. Techzut was established in 2006. We have delivered effective and efficient solutions to our costumers for over 7 years. We produce plastic components using moulds either designed and made by us or delivered by the customers. We use plastic materials such as PS polystyrene, PE polyethylene, PP polypropylene and ABS. If you are looking for a reliable business partner, please contact us.
