

# KRYSTIAN PPH

The core business activity of KRYSTIAN PPH is manufacturing machinery for confectioning hygienic paper for the market of manufacturers of toilet paper and paper towels in Poland and abroad. We offer such machines as: winding machines, saws, core making machines, packaging tables, band labelling machines and others. We have our own design department. We design new machines taking into account individual needs of our clients. We implement innovative technologies and solutions for the paper industry and broaden the range of our products. We also offer machined steel parts as well as parts made of stainless steel and non-ferrous metals using CNC machining centres. KRYSTIAN PPH also provides the service of laser cutting.
