

# MASZ-ZAP LTD.

We offer complete overhauls:

- rotary, piston, screw compressors,
- power turbines and small capacity industrial turbines,
- single - and multi-stage rotary pumps, plunger pumps, multi-piston pumps,
- industrial fittings up to DN 1000, including RIG acceptance test:
  - hydraulic tests up to 60 MPa,
  - air test up to 45 MPa including inspection and setting of safety valves.

Additionally, we offer:

- reclamation of parts using the following methods:
  - spray metallization - wire thermal spray,
  - composite coating to protect parts,
  - machining (turning, milling, boring, grinding).
- alignment of machines using laser equipment.
- balancing of rotary parts on stationary balancers, weight range from 1 kg to 2000 kg.
- balancing of rotary units in their own bearings.
- vibration diagnostics of a machine's dynamic state.
- penetration testing.
- water jet cutting, laser cutting
