

MALINEX

Malinex company has been operating in the market since 1991. Over twenty years of expertise, mainly in distributing mining tools and instruments for hard coal mines, mines of non-ferrous metal ores as well as quarries, ranks the company on the leading position among the companies with similar business profiles. Our products, tools and devices are used in coal and non-ferrous metal mines, in quarries, building enterprises, cement mills, steelworks as well as in forestry and highway engineering. Fast development of our company within the last few years allows us to offer competitive prices and the highest standard of services. We have certifications for all the offered products granted by the Mining Institute. Currently we are working on the implementation of ISO system which will allow us to cooperate with companies from other countries. We would like to invite you to visit our website, where you will be able to find our products. If you are interested in cooperation or need more information, please contact us. We are open to new ideas and cooperation offers in many areas.
