

LUBELSKIE PRZEDSIĘBIORSTWO ENERGETYKI CIEPLNEJ SA

LPEC SA (District Heating) is one of the largest distributors of heat in Poland. The company's core activity concentrates on the distribution of heat to residential and commercial areas as well as public utility facilities. We also provide Lublin inhabitants with a fully operative municipal heat distribution network. LPEC ensures the supply of over 60% of the demand for heat in Lublin, supplying thermal power to over 1400 clients. They include large housing cooperatives and condominiums, enterprises, institutions, commercial facilities, schools, churches, and individuals. In addition to distributing heat, the company also offers comprehensive heating-related and transportation services. LPEC purchases thermal power from two Lublin-based CHP plants and distributes it to the final consumers by means of its own distribution network.

Products & Services: District heating [pol. Ciepło Systemowe]. In addition to the distribution of heat, the company also offers comprehensive heating-related and transportation services.
