

EKO-EFEKT SP. Z O.O.

EKO-EFEKT Sp. z o.o. was established in 1991. From the beginning, our main goal has always been to provide our customers with the highest quality products and services. We supply the highest quality laboratory equipment and measuring instruments used to control air pollution. Direct and long-lasting cooperation with manufacturers and customers provides us with the information required to continue developing high quality services. We provide original accessories and spare parts for the offered equipment, calibration, trainings and demonstrations of the offered products. We support environmentally friendly investment and innovation projects in the field of environmental protection, technology and engineering.

Products & Services: Laboratory filtration materials, humidity metres, measuring instruments for personal worker protection e.g. gas detectors, personal dust meters, industrial dust measurement devices.
