

ASSECO BUSINESS SOLUTIONS S.A.

We devise systems for business. Asseco Business Solutions develops modern management systems for companies by providing complete solutions tailored to the size of the enterprise, its specific manner of operation and the industry. We offer the mobile SFA solutions, ERP and HRM systems, factoring programs, commercial data exchange platforms and SME soft ware. For many years, our systems have successfully supported the operation of tens of thousands of domestic and foreign companies. We are a part of the international Asseco Capital Group, a European market leader in proprietary soft ware. The Group is a constellation of enterprises engaged in the advancement of information technology and is present in over 30 countries around the world. Since 2007, we have been listed on the Warsaw Stock Exchange.

Products & Services: Mobile solutions (SFA) for the management of mobile workforce in the field, ERP systems for the support of business processes in medium-sized and large enterprises, HRM applications for handling operations in HR and payroll, Factoring solutions for a comprehensive handling of factoring transactions, Commercial Data Exchange Platforms (between the producers and commercial partners), SME soft ware
