

# ZAKŁAD PRODUKCJI TKANIN SP. Z O.O.

ZPT Siemien was founded in 1996. Our plant produces upholstery fabrics, mattress fabrics and knitted mattress fabrics. Products are made of cotton, polyester and acrylic. The production is based on the innovative technology with the use of modern machines and the permanent co-operation with the Textile Research Institute. Projects are created by our own designers. Currently, we have 650 patterns and each of them can be produced in the rich scale of colours. We guarantee the repeatability of colours and patterns. We possess appropriate quality certificates and give two-year guarantee on the fabrics.
