

ZAKŁAD PRZEMYSŁU DZIEWIARSKIEGO MTL MARCINIAK SP.J.

MTL company has been specializing in the production of knitwear, mainly sweaters since 1990. Our production facility is equipped with flat-knitting CMS machines by STOLL with E-5, E-7, E-10 needles. We produce fully fashionable fabrics as well as seamless products in the knit & wear technology using CMS 5.2 machines. We have our own design propositions. Moreover, we may produce sweaters according to designs provided by the client. There is an exclusive possibility to contract certain models. Our company produces tens of thousands of products each year. The whole production process is held exclusively in Poland.
