

FABRYKA ŁOŻYSK TOCZNYCH - KRAŚNIK S.A

Fabryka Łożysk Tocznych - Kraśnik S.A.

Fabryka Łożysk Tocznych – Kraśnik S.A. (Rolling Bearings Factory) is the largest rolling bearings manufacturer in Poland. The production program includes deep groove ball bearings, self-aligning, angular single and double row, single-and double-direction thrust ball bearings. In addition, we manufacture taper roller bearings single and multi-row, cylindrical roller bearings and bearings designed according to special customers' design requirements, especially for the automotive industry. Fabryka Łożysk Tocznych – Kraśnik S.A. is the only Polish manufacturer of the large size bearings with diameters up to 2050mm. There are more than 1500 bearing types in our range of production. Apart from bearings, FŁT-Kraśnik S.A. can also offer: forgings and stampings made by hot forming using forging press AMP-70, machined rings, precise high speed grinding spindles, roller guides and tools.
